

A polar bear is the central focus of the image, standing on a rocky, mossy ground. The bear is white with a thick coat of fur and is looking directly at the camera. The background consists of large, grey rocks and patches of green moss and small plants. The overall scene is outdoors and appears to be a natural habitat.

# Trivia quiz: Polar Bears

1. Except for where they exist in zoos, polar bears are found only in the northern hemisphere.

True \_\_\_\_ False \_\_\_\_

# Trivia quiz: Polar Bears

1. Except for where they exist in zoos, polar bears are found only in the northern hemisphere.

True X      False    

# Trivia quiz: Polar Bears

2. All baby polar bears are born in spring, usually as twins.

True \_\_\_\_ False \_\_\_\_

# Trivia quiz: Polar Bears

2. All baby polar bears are born in spring, usually as twins.

True  False

All polar bears are Capricorns since they are all born in late December or early January. But yes, they are usually born in pairs.

A polar bear is the central focus of the image, standing on a rocky, mossy ground. The bear is white with a thick coat of fur and is looking directly at the camera. The background consists of large, grey rocks and patches of green moss and small plants.

## Trivia quiz: Polar Bears

3. Although they are known as a white bear, polar bear skin is actually pink as a baby pig under all that fur.

True  False

A polar bear is sitting on a rocky, mossy ground. The bear is white and looking directly at the camera. The background consists of rocks and green vegetation.

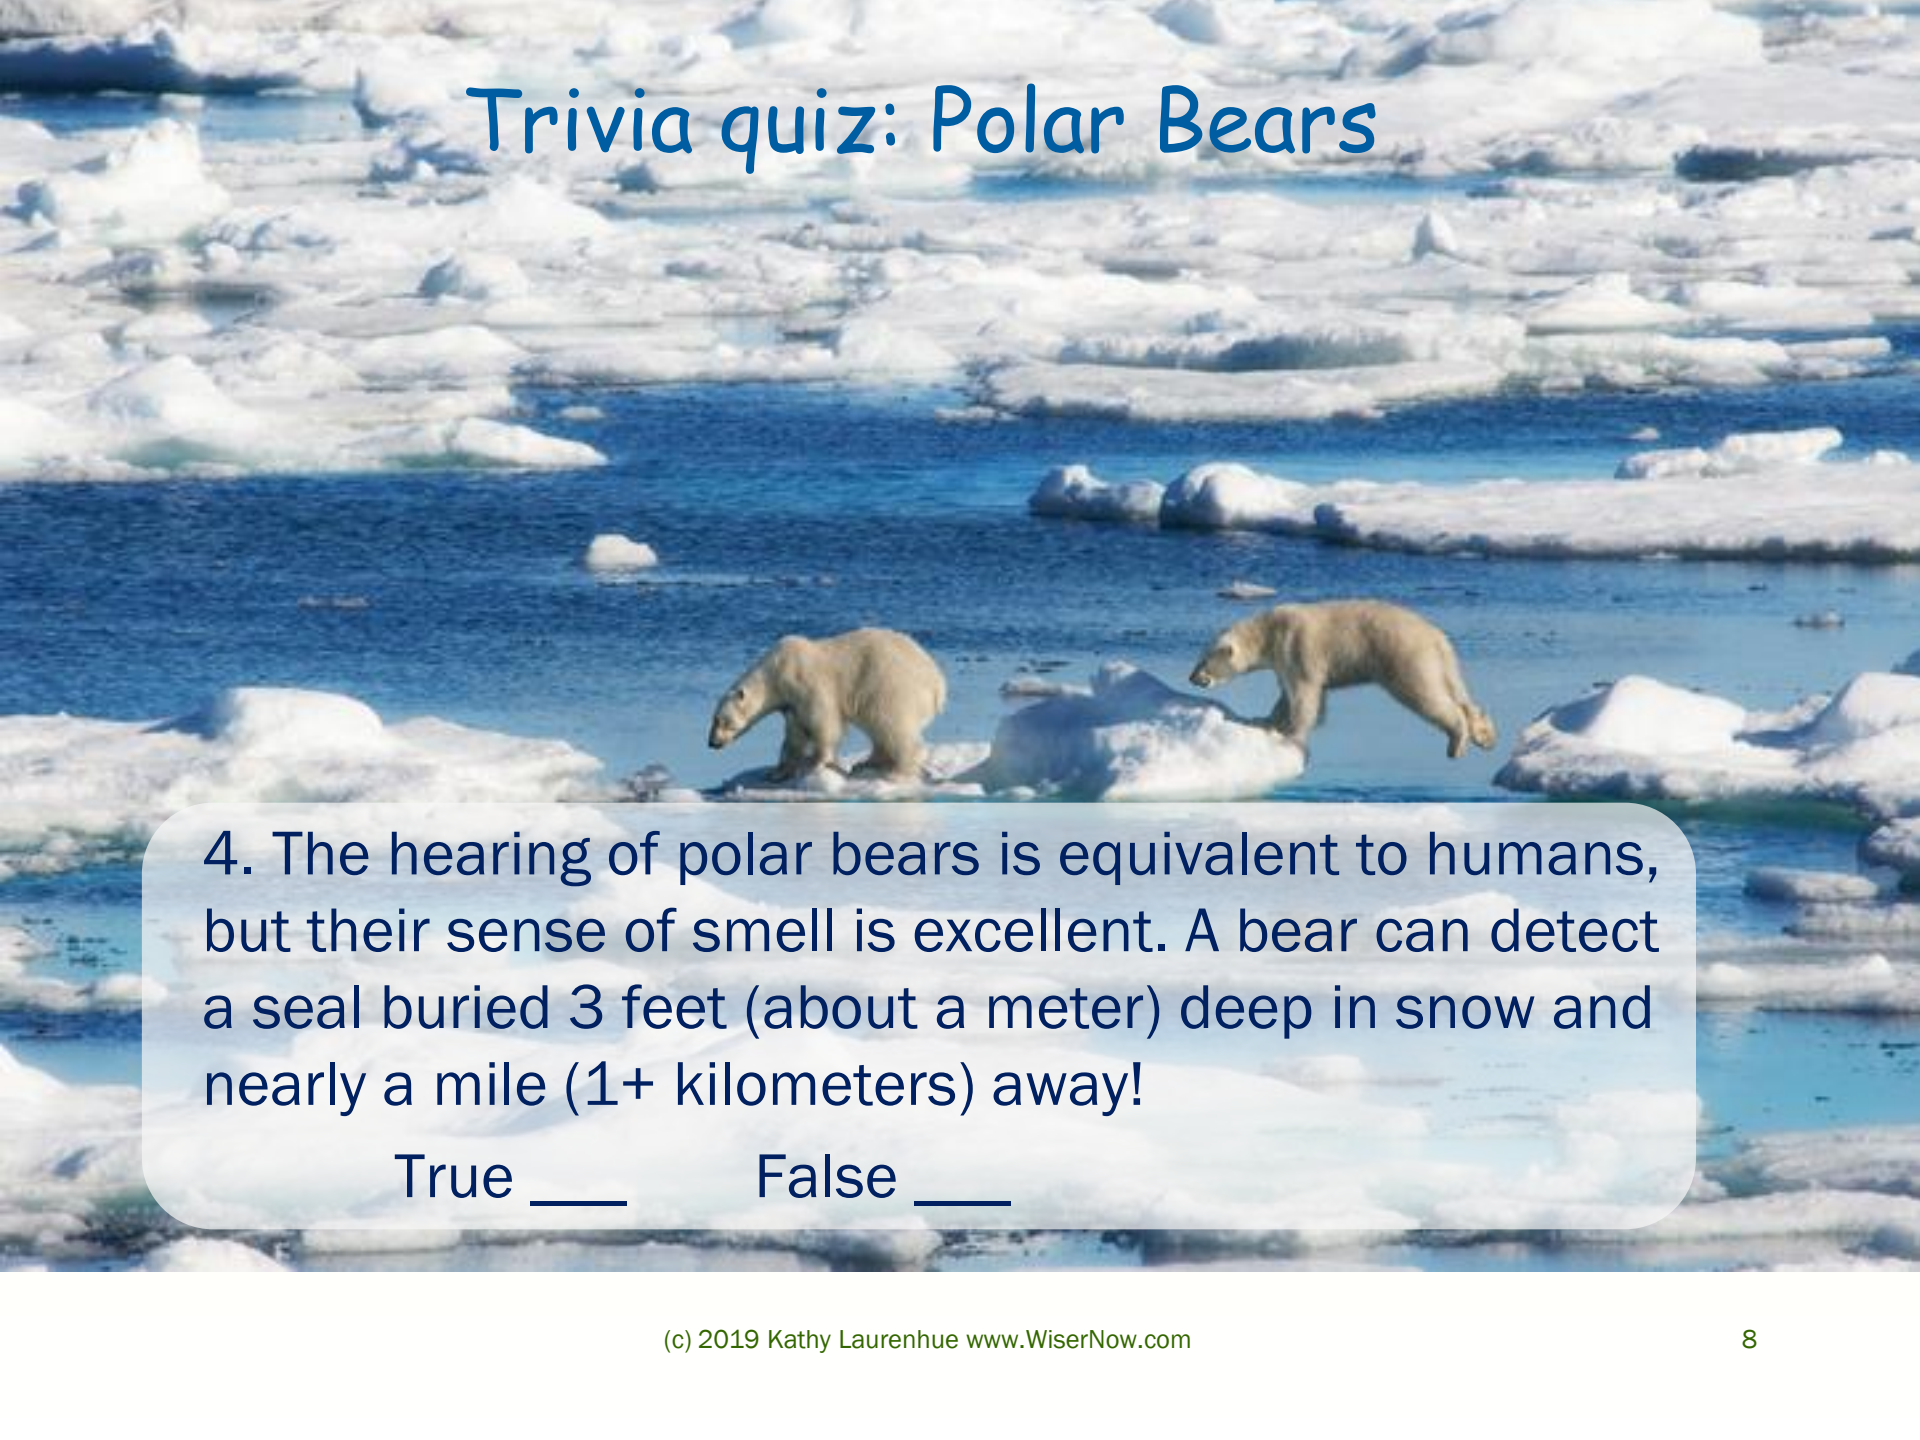

## Trivia quiz: Polar Bears

3. Although they are known as a white bear, polar bear skin is actually pink as a baby pig under all that fur.

True  False

Polar bear skin is black to better absorb the heat of the sun.

# Trivia quiz: Polar Bears

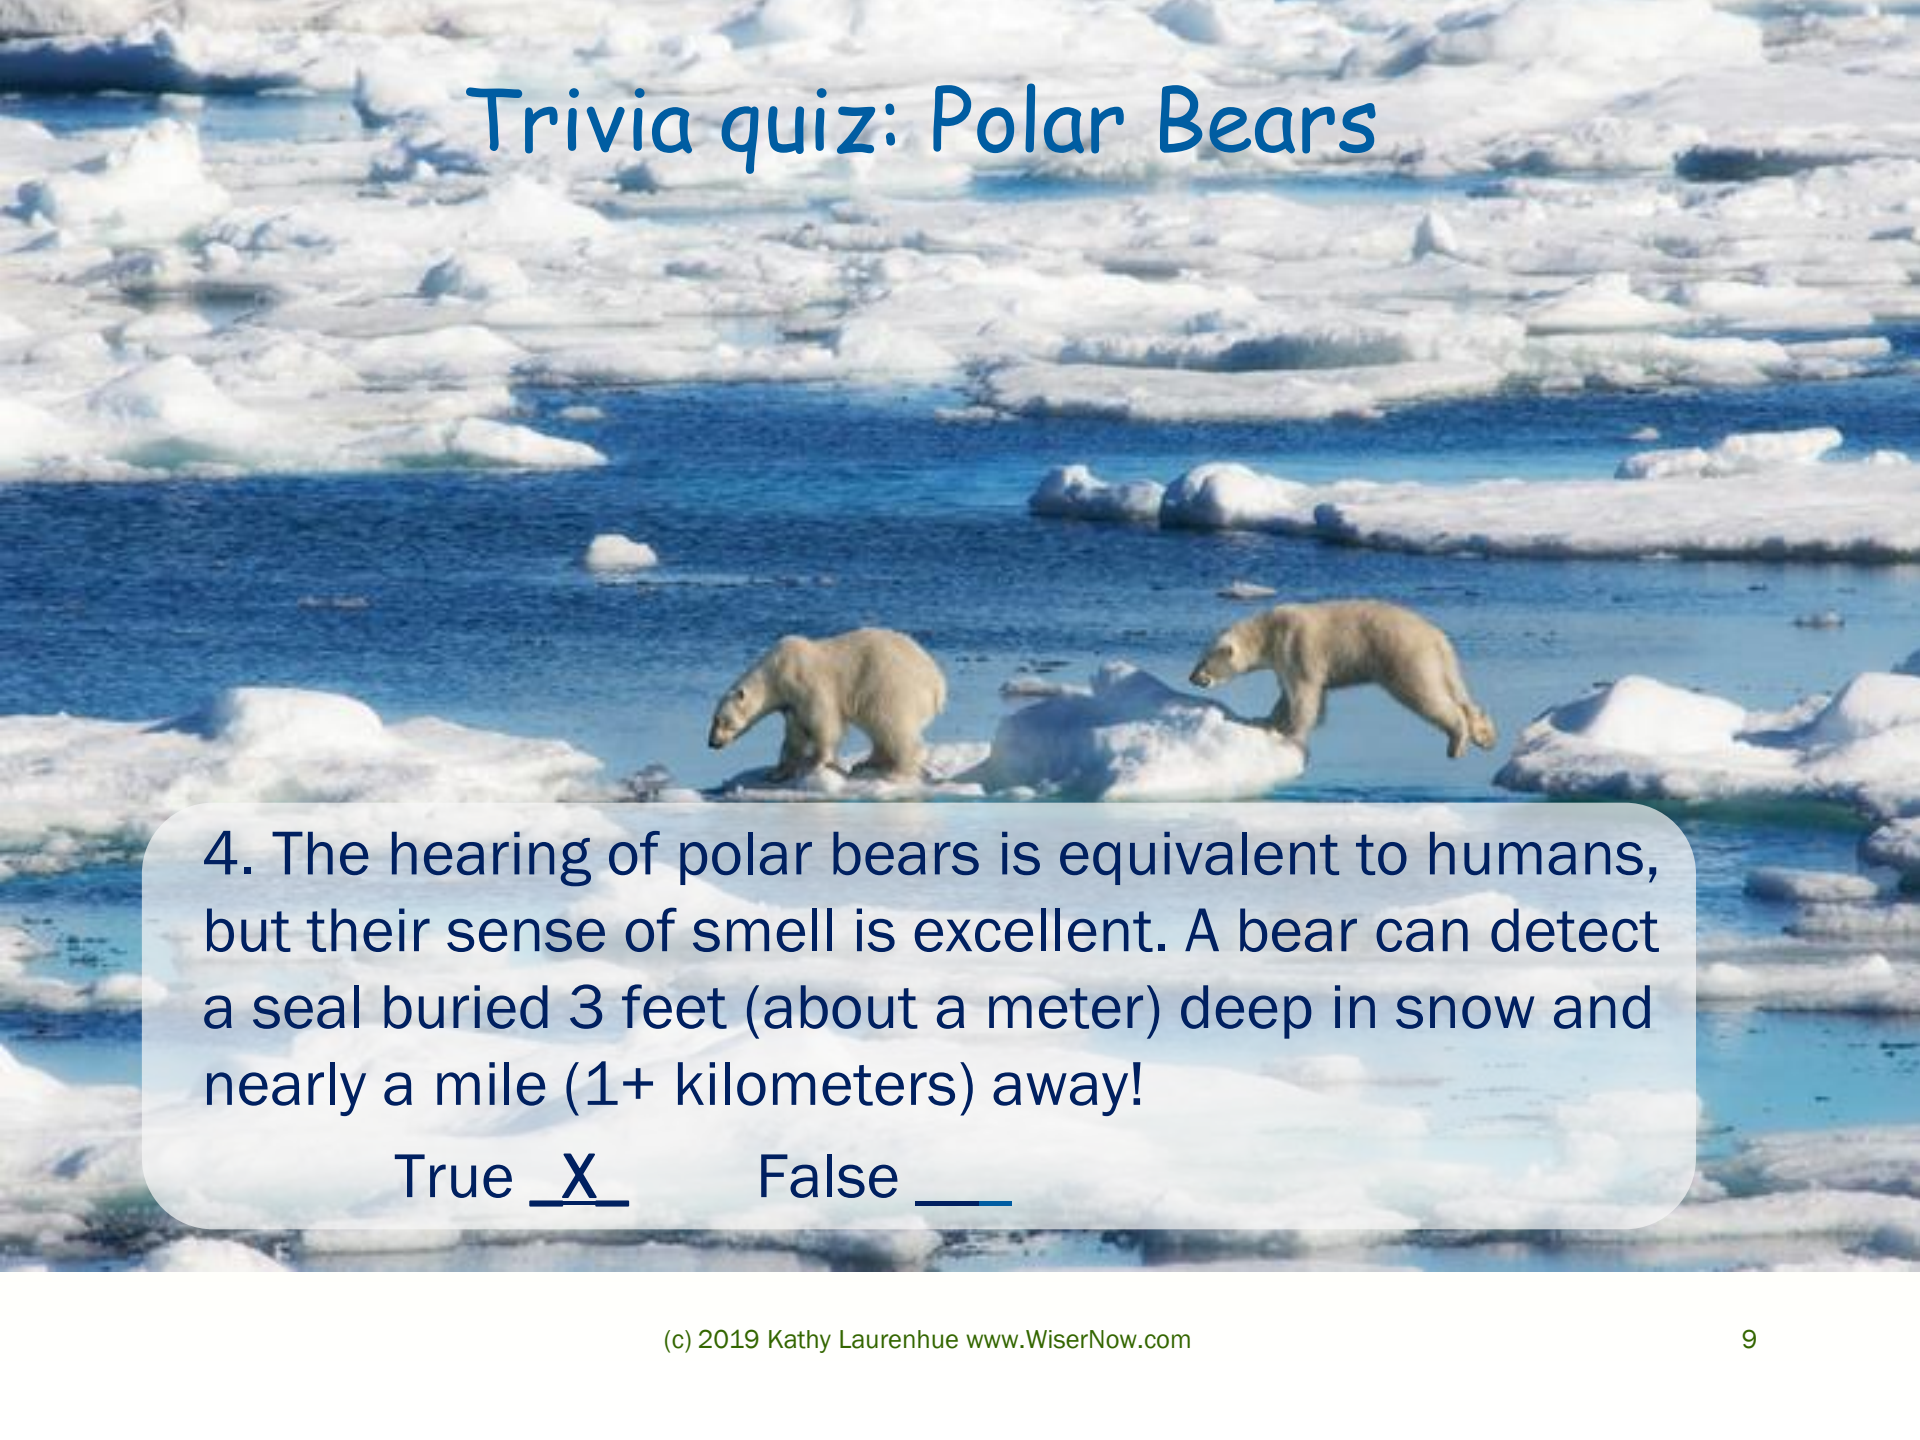

A photograph of two polar bears walking across a large, flat ice floe in a sea of smaller ice chunks. The bears are light brown and are moving from left to right. The water is a deep blue, and the sky is bright. The ice floe they are on is a large, flat, white mass.

4. The hearing of polar bears is equivalent to humans, but their sense of smell is excellent. A bear can detect a seal buried 3 feet (about a meter) deep in snow and nearly a mile (1+ kilometers) away!

True \_\_\_\_ False \_\_\_\_

# Trivia quiz: Polar Bears

A photograph of two polar bears walking across a series of ice floes in the Arctic sea. The bears are light brown and are moving from left to right. The water is a deep blue, and the ice floes are white and jagged.

4. The hearing of polar bears is equivalent to humans, but their sense of smell is excellent. A bear can detect a seal buried 3 feet (about a meter) deep in snow and nearly a mile (1+ kilometers) away!

True X      False

## Trivia quiz: Polar Bears

5. Polar bears are pigeon-toed (their toes point inward instead of straight ahead), but quite fast. They can run up to 15 miles per hour (24km/hr) for short distances.

True  False

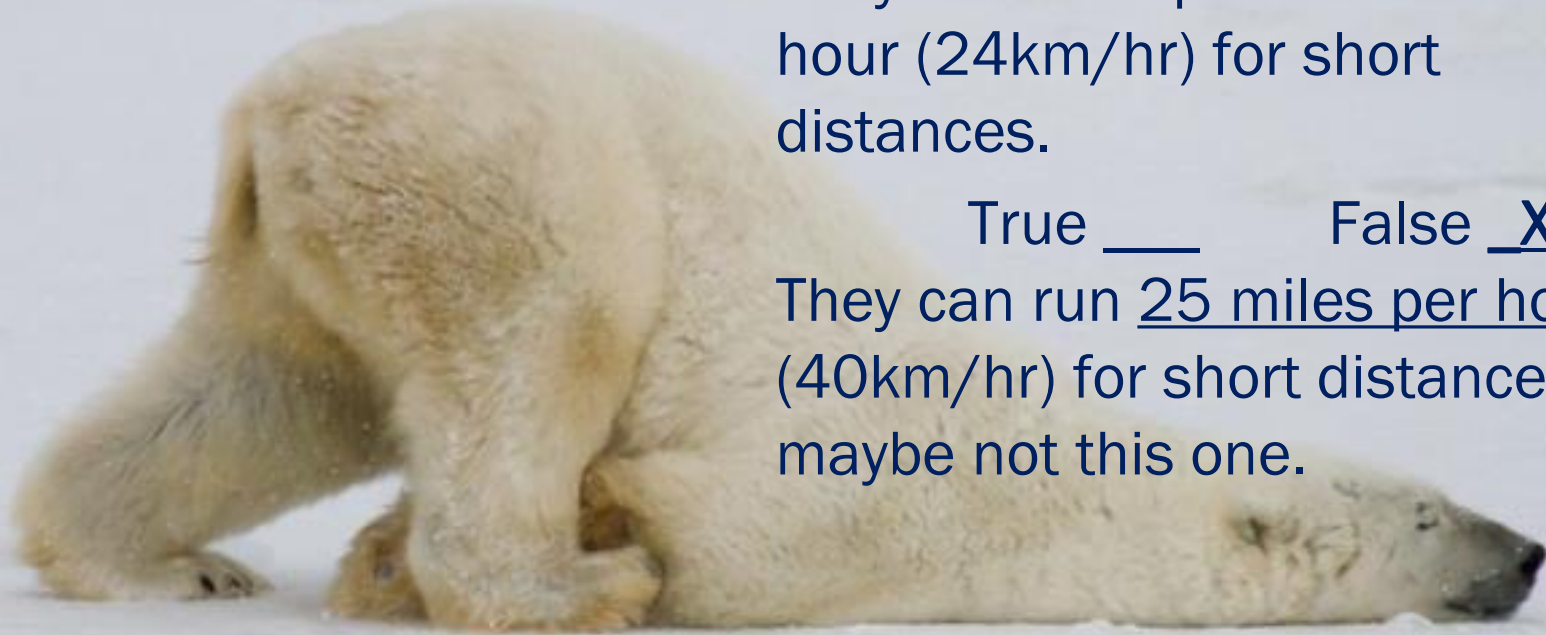

## Trivia quiz: Polar Bears

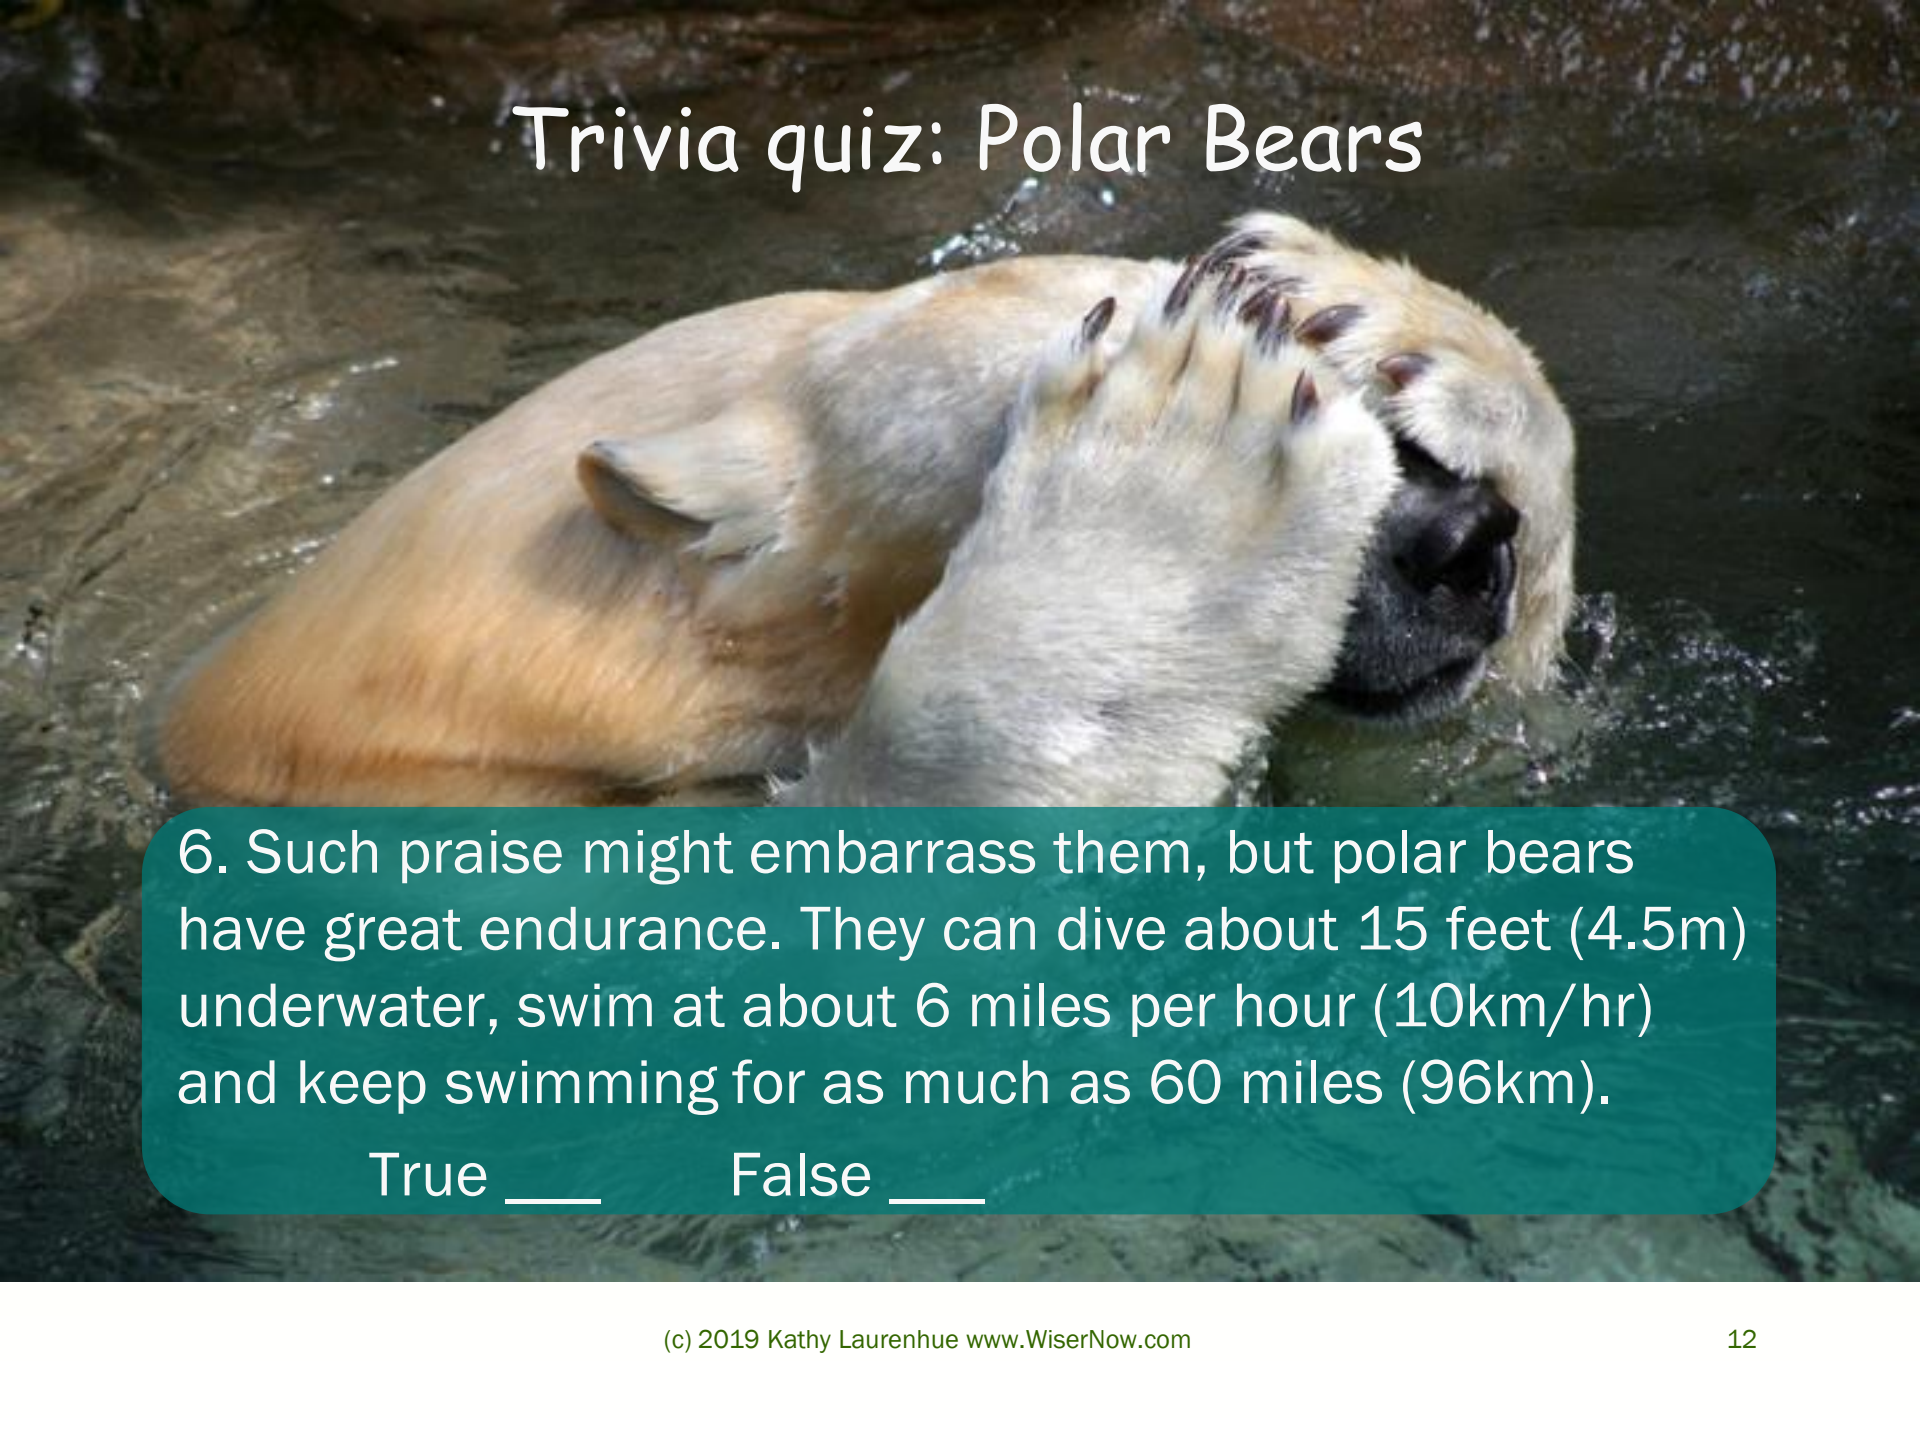

5. Polar bears are pigeon-toed (their toes point inward instead of straight ahead), but quite fast. They can run up to 15 miles per hour (24km/hr) for short distances.

True \_\_\_ False X

They can run 25 miles per hour (40km/hr) for short distances! But maybe not this one.

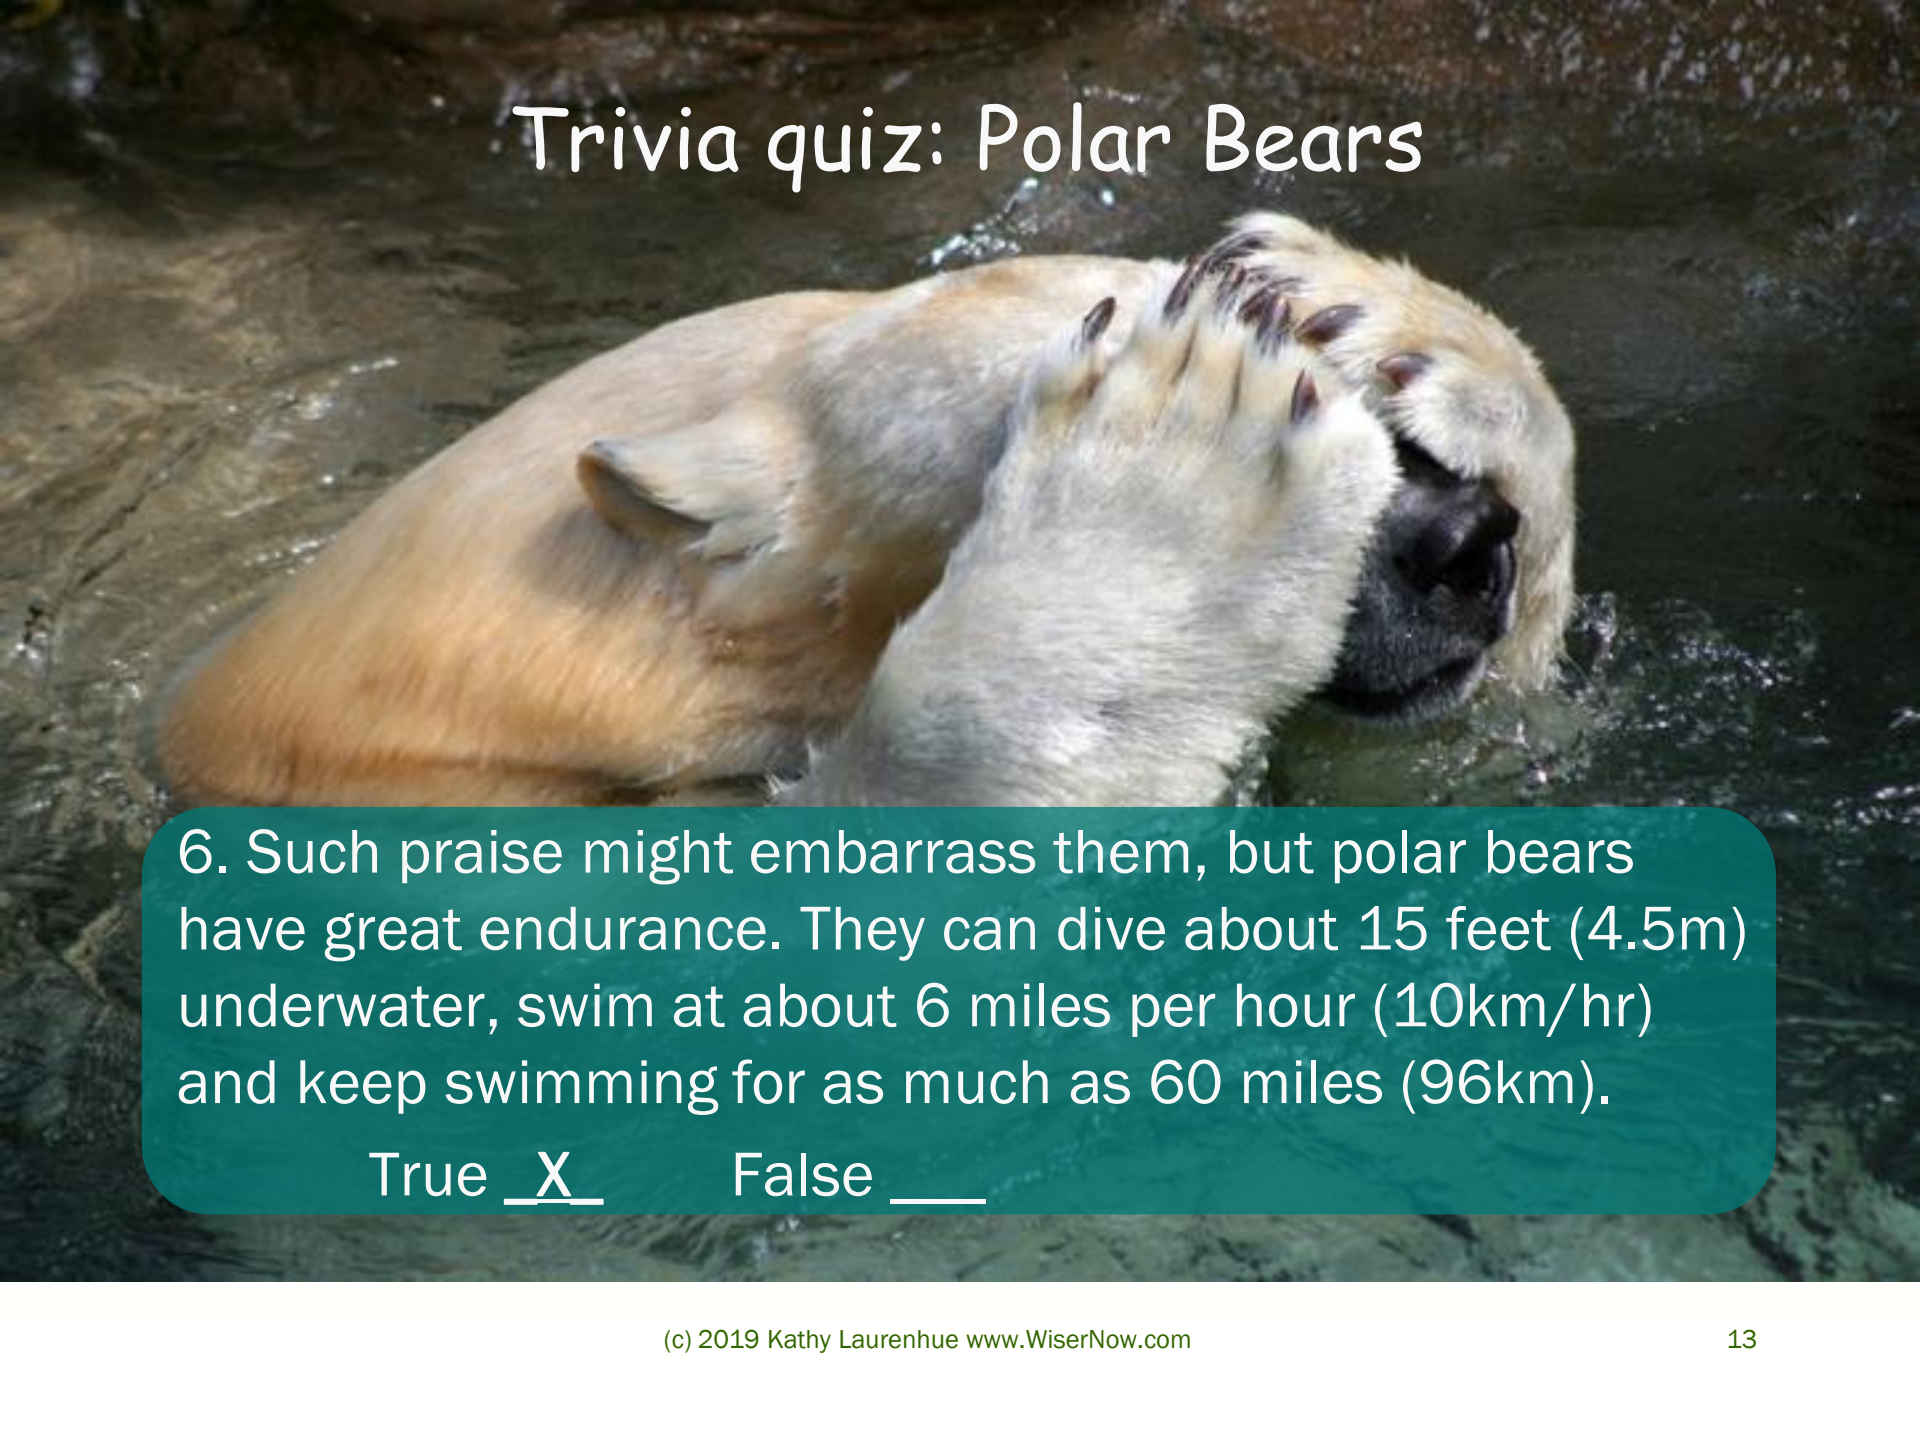

# Trivia quiz: Polar Bears

A close-up photograph of a polar bear swimming in dark water. The bear's head is above water, and its body is partially submerged. The water is dark and rippling around the bear.

6. Such praise might embarrass them, but polar bears have great endurance. They can dive about 15 feet (4.5m) underwater, swim at about 6 miles per hour (10km/hr) and keep swimming for as much as 60 miles (96km).

True \_\_\_ False \_\_\_

# Trivia quiz: Polar Bears

A close-up photograph of a polar bear swimming in dark water. The bear's head is above the surface, and its body is partially submerged. The water is dark and slightly rippled.

6. Such praise might embarrass them, but polar bears have great endurance. They can dive about 15 feet (4.5m) underwater, swim at about 6 miles per hour (10km/hr) and keep swimming for as much as 60 miles (96km).

True X False

# Trivia quiz: Polar Bears

7. The polar bear's favorite meal is a fresh seal, but they will eat ordinary fish if they can't catch a seal. (Polar bears are faster than seals on ice, but seals are stronger swimmers in the water.)

True  False

# Trivia quiz: Polar Bears

7. The polar bear's favorite meal is a fresh seal, but they will eat ordinary fish if they can't catch a seal. (Polar bears are faster than seals on ice, but seals are stronger swimmers in the water.)

True  False

Polar bears eat seals, Beluga whales, walruses and sometimes a bit of seaweed, but not fish!

# Trivia quiz: Polar Bears

8. Unlike bears that live south of the Arctic and hibernate in winter, polar bears mostly lie around in the warmer summertime when the ice shrinks, because they aren't built to hunt on land.

True \_\_\_\_ False \_\_\_\_

# Trivia quiz: Polar Bears

8. Unlike bears that live south of the Arctic and hibernate in winter, polar bears mostly lie around in the warmer summertime when the ice shrinks, because they aren't built to hunt on land.

True X      False
